INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series is collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 115 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 300 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

- .. figures not available; and,
- nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route.

INTRODUCTION

Le bulletin Opérations des transporteurs au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue.

Opérations des transporteurs aériens transcontinentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la direction et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin opérations des transporteurs aériens au Canada donne un aperçu des activités des sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85% des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 115 transporteurs, des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 300 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux:

- .. chiffres non disponibles; et,
- néant ou zéro.

En outre, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres totaux des tableaux sont attribués à la catégorie de

When making historical data comparisons by financial group, it is also noteworthy that prior to 1970 Nordair was included in Financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

With reference to Group V, data on flight training and recreational flying hours performed under authority of a Class 6 Flying Clubs licence have been included. However, specialty flying revenues are not reported by type of activity.

Figures shown for the numbers of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair a été compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées aux termes de la Loi nationale sur les transports.

En ce qui concerne les transporteurs du groupe V, il faut noter que les statistiques sur les heures pour "l'entraînement au vol" et le "vol récréatif" comprennent les heures de vol effectuées par les aéro-clubs sous l'autorité d'une licence de la classe 6. Cependant, les recettes de vols spécialisés ne sont pas déclarées par genre d'activité.

Il est à noter que le nombre de milles parcourus et le nombre d'heures de vol des compagnies étrangères qui apparaissent au tableau 1 ne se rapportent qu'aux activités effectuées en territoire canadien.

En général, les totaux depuis le début de l'année sont révisés dans le but d'inclure les révisions déclarées par les transporteurs aériens.

GLOSSARY

- AIRCRAFT AND TRAFFIC SERVICING EXPENSE** - This includes: compensation paid to ground personnel; the ground expenses involved in servicing and handling the traffic on the ground, in servicing and handling individual aircraft, in preparing aircraft crews for flight assignment, and in controlling the in-flight movement of aircraft; as well as the in-flight expenses of handling all non-passenger traffic including baggage.
- AVAILABLE SEAT-MILES** - The number of aircraft-miles flown multiplied by the number of seats on the aircraft. This figure represents the total passenger-carrying capacity offered.
- AVAILABLE TON-MILES** - The number of aircraft-miles flown multiplied by the usable weight capacity of the aircraft. This represents the load carrying capacity offered for passengers and goods.
- CAPITAL GAINS OR LOSSES** - Gains or losses involved in retiring operating property and equipment, flight equipment, expendable parts, miscellaneous materials and supplies, etc., when they are sold or otherwise removed from service as part of a general retirement program and not as incidental sales performed as a service to others.
- CARGO** - Both freight and express carried on an aircraft.
- CHARTERED TRANSPORTATION** - Public transport of passengers and/or goods from a designated base at a toll per mile or per hour for the hire of the capacity of an aircraft.
- CONTRACT TRANSPORTATION** - Transportation not available to the public, performed in accordance with one or more specific contracts and conducted under a Class 5 licence issued by the Air Transport Committee of the Canadian Transport Commission.
- DEPARTURES** - Takeoffs of revenue transportation flights (unit toll, charter and contract services only) including non-scheduled takeoffs after operational stops.
- DEPRECIATION AND AMORTIZATION** - Include all charges to expense to record losses incurred in normal wear and tear on property and equipment which have not been replaced by current repair, as well as losses in serviceability occasioned by obsolescence - innovation, and changes in popular demand - or by action of a public authority. Also included are charges for the amortization of capitalized development, and other intangible assets.
- EMPLOYEES, CANADIAN CARRIERS** - All persons employed by a Canadian airline who are domiciled either domestically or in a foreign country.
- EMPLOYEES, FOREIGN CARRIERS** - Only those persons employed by a foreign airline who are resident in Canada.
- EXCESS BAGGAGE** - Baggage which in terms of weight, number of pieces or size exceeds the free baggage allowance stated in the air carrier's tariffs and for which a charge is levied. Air Canada and Transair do not report excess baggage weight or ton-miles.
- EXPRESS** - Property shipments within North America which are given priority over air freight. The rate charged includes door-to-door service on the ground as well.
- EXTRA-SECTION MILES** - Miles flown on flights which are added to those timetabled because of extra demand for air service.
- FOREIGN AIR CARRIER** - An airline of a foreign country operating scheduled and/or charter services to and from Canada.
- FREIGHT** - Property shipments for which a standard tariff rate is charged per unit of weight or volume.
- GENERAL ADMINISTRATION EXPENSES** - This term includes expenses of a general corporate nature as well as those incurred in performing activities which contribute to more than a single operating function, such as general financial accounting activities, purchasing activities, representation at law, and other operational administrations not directly applicable to a particular function.
- GOODS** - This term includes all types of non-passenger traffic, that is, freight, express and mail.
- GOODS TON-MILE** - A goods ton-mile represents the carriage of one ton of goods one mile. Ton-mile figures are obtained by totalling the number of miles flown with each ton of goods.
- GROUP I CARRIERS (FINANCIAL LEVEL 1)** - See "Transcontinental Carriers".
- GROUP II CARRIERS (FINANCIAL LEVEL 2)** - See "Regional Carriers". Prior to 1970, Nordair was included in Group III.
- GROUP III (FINANCIAL LEVEL 3)** - All air carriers not in Level 1 or Level 2 which have reported more than \$500,000 annually for combined unit toll and charter transportation revenues, or which have reported more than \$150,000 annually for unit toll revenues.
- GROUP IV (FINANCIAL LEVEL 4)** - All air carriers reporting more than \$150,000 gross annual flying revenues but not qualifying for Financial Level 3.
- GROUP V (FINANCIAL LEVEL 5)** - All air carriers reporting less than \$150,000 gross annual flying revenues.
- HOURS** - Canadian airlines report the total number of hours flown. Foreign airlines report only the number of hours flown over Canadian territory.
- INCIDENTAL REVENUES** - Revenues less related expenses from services incidental to air transportation, such as sales of service supplies and parts as well as the rental of operating property and equipment.

INTEREST EXPENSE - Interest on all classes of debt including premium, discount and expense on short-term obligations; amortization of premium discount; and expense on short-term and long-term obligations.

MILE - Statute mile of 5,280 feet. Canadian airlines report the number of miles flown for the complete flight distance. Foreign airlines report only miles flown over Canadian territory.

NON-OPERATING INCOME AND EXPENSE - Income and loss of commercial ventures not part of the air transport services of the accounting entity; other revenues and expenses attributable to financing or other activities that are extraneous to and not an integral part of air transportation or its incidental services; and special recurrent items of a non-periodic nature.

OPERATING EXPENSE - Expenses incurred in the performance of air transportation. It includes direct aircraft operating expenses as well as ground and indirect operating expenses.

OPERATING INCOME - The profit or loss from performance of air transportation based on total operating revenues less total operating expenses. It does not include non-operating income and expenses or special items, and is a "before income taxes" figure.

OPERATING REVENUE - Revenues from the performance of air transportation and related incidental services. It includes: (1) transport revenues from all classes of traffic, and (2) non-transport revenues consisting of payments under the National Transportation Act where applicable, and the net amount of revenues less related expenses from services incidental to air transportation.

PACIFIC AND ORIENT SERVICES - Services to Australia, Fiji, Japan and Hong Kong, but excluding services to Hawaii. Prior to 1970, statistics for flights to Hawaii were included under the heading "Pacific and Orient" but are now included under "Transborder".

PASSENGER - A person who pays a fare and receives air transportation is counted as one revenue passenger. Infants paying 10% adult fare are not included.

PASSENGER LOAD FACTOR - This ratio is calculated by dividing the number of revenue passenger-miles by the number of available seat-miles. Seats not available for the carriage of passengers because of the weight of fuel or other considerations have been excluded.

PASSENGER-MILE - A passenger-mile represents the carriage of one passenger for one mile. Passenger-mile figures are obtained by totalling the number of miles flown by each passenger.

PASSENGER SERVICE EXPENSE - Costs of activities contributing to the comfort, safety and convenience of passengers while in flight and when flights are interrupted. It includes both salaries and expenses of cabin attendants, and the passenger food expense.

PASSENGER REVENUE PER PASSENGER-MILE - This ratio is calculated by dividing the gross revenue earned in unit toll passenger services by the number of revenue passenger-miles reported for unit toll services.

PASSENGER TON-MILE - This is a figure calculated by multiplying the number of revenue passengers carried by an arbitrary weight of 200 pounds which is assumed to be the average weight for a passenger and his free baggage allowance. The result is then divided by 2000 to give a ton-mile figure.

PASSENGER WEIGHT - Standard passenger weight is 200 pounds per person, which includes free baggage allowance.

PROMOTION AND SALES EXPENSE - Costs incurred both in promoting the use of air transportation generally, and in creating a public preference for the service of a particular air carrier. It includes selling, advertising, space reservations, and the development of tariffs and flight schedules for publication.

INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series is collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 115 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 300 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

- .. figures not available; and,
- nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route.

INTRODUCTION

Le bulletin Opérations des transporteurs au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue.

Opérations des transporteurs aériens transcontinentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la direction et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin opérations des transporteurs aériens au Canada donne un aperçu des activités de sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85 % des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 115 transporteurs des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 300 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux:

- .. chiffres non disponibles; et,
- néant ou zéro.

En outre, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres totaux des tableaux sont attribués à la catégorie de

When making historical data comparisons by financial group, it is also noteworthy that prior to 1970 Nordair was included in Financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

With reference to Group V, data on flight training and recreational flying hours performed under authority of a Class 6 Flying Clubs licence have been included. However, specialty flying revenues are not reported by type of activity.

Figures shown for the numbers of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair a été compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées aux termes de la Loi nationale sur les transports.

En ce qui concerne les transporteurs du groupe V, il faut noter que les statistiques sur les heures pour "l'entraînement au vol" et le "vol récréatif" comprennent les heures de vol effectuées par les aéro-clubs sous l'autorité d'une licence de la classe 6. Cependant, les recettes de vols spécialisés ne sont pas déclarées par genre d'activité.

Il est à noter que le nombre de milles parcourus et le nombre d'heures de vol des compagnies étrangères qui apparaissent au tableau 1 ne se rapportent qu'aux activités effectuées en territoire canadien.

En général, les totaux depuis le début de l'année sont révisés dans le but d'inclure les révisions déclarées par les transporteurs aériens.

GLOSSARY

AIRCRAFT AND TRAFFIC SERVICING EXPENSE - This includes: compensation paid to ground personnel; the ground expenses involved in servicing and handling the traffic on the ground, in servicing and handling individual aircraft, in preparing aircraft crews for flight assignment, and in controlling the in-flight movement of aircraft; as well as the in-flight expenses of handling all non-passenger traffic including baggage.

AVAILABLE SEAT-MILES - The number of aircraft-miles flown multiplied by the number of seats on the aircraft. This figure represents the total passenger-carrying capacity offered.

AVAILABLE TON-MILES - The number of aircraft-miles flown multiplied by the usable weight capacity of the aircraft. This represents the load carrying capacity offered for passengers and goods.

CAPITAL GAINS OR LOSSES - Gains or losses involved in retiring operating property and equipment, flight equipment, expendable parts, miscellaneous materials and supplies, etc., when they are sold or otherwise removed from service as part of a general retirement program and not as incidental sales performed as a service to others.

CARGO - Both freight and express carried on an aircraft.

CHARTER TRANSPORTATION - Public transport of passengers and/or goods from a designated base at a toll per mile or per hour for the hire of the capacity of an aircraft.

CONTRACT TRANSPORTATION - Transportation not available to the public, performed in accordance with one or more specific contracts and conducted under a Class 5 licence issued by the Air Transport Committee of the Canadian Transport Commission.

DEPARTURES - Takeoffs of revenue transportation flights (unit toll, charter and contract services only) including non-scheduled takeoffs after operational stops.

DEPRECIATION AND AMORTIZATION - Include all charges to expense to record losses incurred in normal wear and tear on property and equipment which have not been replaced by current repair, as well as losses in serviceability occasioned by obsolescence - innovation, and changes in popular demand - or by action of a public authority. Also included are charges for the amortization of capitalized development, and other intangible assets.

EMPLOYEES, CANADIAN CARRIERS - All persons employed by a Canadian airline who are domiciled either domestically or in a foreign country.

EMPLOYEES, FOREIGN CARRIERS - Only those persons employed by a foreign airline who are resident in Canada.

EXCESS BAGGAGE - Baggage which in terms of weight, number of pieces or size exceeds the free baggage allowance stated in the air carrier's tariffs and for which a charge is levied. Air Canada and Transair do not report excess baggage weight or ton-miles.

EXPRESS - Property shipments within North America which are given priority over air freight. The rate charged includes door-to-door service on the ground as well.

EXTRA-SECTION MILES - Miles flown on flights which are added to those timetabled because of extra demand for air service.

FOREIGN AIR CARRIER - An airline of a foreign country operating scheduled and/or charter services to and from Canada.

FREIGHT - Property shipments for which a standard tariff rate is charged per unit of weight or volume.

GENERAL ADMINISTRATION EXPENSES - This term includes expenses of a general corporate nature as well as those incurred in performing activities which contribute to more than a single operating function, such as general financial accounting activities, purchasing activities, representation at law, and other operational administrations not directly applicable to a particular function.

GOODS - This term includes all types of non-passenger traffic, that is, freight, express and mail.

GOODS TON-MILE - A goods ton-mile represents the carriage of one ton of goods one mile. Ton-mile figures are obtained by totalling the number of miles flown with each ton of goods.

GROUP I CARRIERS (FINANCIAL LEVEL 1) - See "Transcontinental Carriers".

GROUP II CARRIERS (FINANCIAL LEVEL 2) - See "Regional Carriers". Prior to 1970, Nordair was included in Group III.

GROUP III (FINANCIAL LEVEL 3) - All air carriers not in Level 1 or Level 2 which have reported more than \$500,000 annually for combined unit toll and charter transportation revenues, or which have reported more than \$150,000 annually for unit toll revenues.

GROUP IV (FINANCIAL LEVEL 4) - All air carriers reporting more than \$150,000 gross annual flying revenues but not qualifying for Financial Level 3.

GROUP V (FINANCIAL LEVEL 5) - All air carriers reporting less than \$150,000 gross annual flying revenues.

HOURS - Canadian airlines report the total number of hours flown. Foreign airlines report only the number of hours flown over Canadian territory.

INCIDENTAL REVENUES - Revenues less related expenses from services incidental to air transportation, such as sales of service supplies and parts as well as the rental of operating property and equipment.

INTEREST EXPENSE - Interest on all classes of debt including premium, discount and expense on short-term obligations; amortization of premium discount; and expense on short-term and long-term obligations.

MILE - Statute mile of 5,280 feet. Canadian airlines report the number of miles flown for the complete flight distance. Foreign airlines report only miles flown over Canadian territory.

NON-OPERATING INCOME AND EXPENSE - Income and loss of commercial ventures not part of the air transport services of the accounting entity; other revenues and expenses attributable to financing or other activities that are extraneous to and not an integral part of air transportation or its incidental services; and special recurrent items of a non-periodic nature.

OPERATING EXPENSE - Expenses incurred in the performance of air transportation. It includes direct aircraft operating expenses as well as ground and indirect operating expenses.

OPERATING INCOME - The profit or loss from performance of air transportation based on total operating revenues less total operating expenses. It does not include non-operating income and expenses or special items, and is a "before income taxes" figure.

OPERATING REVENUE - Revenues from the performance of air transportation and related incidental services. It includes: (1) transport revenues from all classes of traffic, and (2) non-transport revenues consisting of payments under the National Transportation Act where applicable, and the net amount of revenues less related expenses from services incidental to air transportation.

PACIFIC AND ORIENT SERVICES - Services to Australia, Fiji, Japan and Hong Kong, but excluding services to Hawaii. Prior to 1970, statistics for flights to Hawaii were included under the heading "Pacific and Orient" but are now included under "Transborder".

PASSENGER - A person who pays a fare and receives air transportation is counted as one revenue passenger. Infants paying 10% adult fare are not included.

PASSENGER LOAD FACTOR - This ratio is calculated by dividing the number of revenue passenger-miles by the number of available seat-miles. Seats not available for the carriage of passengers because of the weight of fuel or other considerations have been excluded.

PASSENGER-MILE - A passenger-mile represents the carriage of one passenger for one mile. Passenger-mile figures are obtained by totalling the number of miles flown by each passenger.

PASSENGER SERVICE EXPENSE - Costs of activities contributing to the comfort, safety and convenience of passengers while in flight and when flights are interrupted. It includes both salaries and expenses of cabin attendants, and the passenger food expense.

PASSENGER REVENUE PER PASSENGER-MILE - This ratio is calculated by dividing the gross revenue earned in unit toll passenger services by the number of revenue passenger-miles reported for unit toll services.

PASSENGER TON-MILE - This is a figure calculated by multiplying the number of revenue passengers carried by an arbitrary weight of 200 pounds which is assumed to be the average weight for a passenger and his free baggage allowance. The result is then divided by 2000 to give a ton-mile figure.

PASSENGER WEIGHT - Standard passenger weight is 200 pounds per person, which includes free baggage allowance.

PROMOTION AND SALES EXPENSE - Costs incurred both in promoting the use of air transportation generally, and in creating a public preference for the service of a particular air carrier. It includes selling, advertising, space reservations, and the development of tariffs and flight schedules for publication.

REGIONAL AIR CARRIER - Any Canadian carrier designated by the Minister of Transport as "regional carrier". The regional carriers are Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways.

REGULAR, IRREGULAR AND SPECIFIC POINT AIR CARRIER - Any carrier authorized by the Air Transport Committee of the Canadian Transport Commission to perform Classes 2, 9-2, 3, or 9-3 regular or irregular unit toll services to specified points. Class I and Class 8 licences indicate "scheduled" air carriers.

REGULARITY OF SERVICE - A ratio obtained by dividing the scheduled miles flown by the scheduled miles performed under unit toll scheduled services. In this publication, "Regularity of Service" excludes the notion of timeliness.

SCHEDULED CARRIER - Any airline having a Class I or Class 8 licence to perform scheduled unit toll operations.

SCHEDULED MILES - The number of miles scheduled on an air carrier's timetable. The actual mileage flown may differ because of cancelled flights, reroutings or extra-section flights. (see "Regulatory of Service".)

SOUTHERN SERVICES - Services between Canada and Bermuda, the Caribbean, Mexico, Central America and South America, excluding Florida. Prior to 1970, statistics for flights to Florida were included under the heading "Southern".

SPECIALTY FLYING - Revenue flying services performed under authority of a Class 7 licence. Specialty flying consists of activities such as sightseeing, flight training, aerial photography and survey, etc. or other types of flying which do not involve the transport of passengers or goods from one place to another.

TOTAL OPERATING REVENUES PER EMPLOYEE - This ratio is calculated by dividing the total gross operating revenues by the average number of employees for the month.

TON - Short ton of 2,000 pounds.

TON-MILE -- Represents the carriage of one ton of goods for one mile. Ton mileage is the sum of the miles flown with each ton of goods.

TRANS-ATLANTIC AND POLAR SERVICE -- Services between Canada and Europe or between Canada and the Soviet Union.

TRANSBORDER SERVICES -- Services between points in Canada and Alaska, Canada and Hawaii, and Canada and continental United States. Prior to 1970, statistics for flights to Hawaii were included under the heading "Pacific and Orient".

TRANSCONTINENTAL CARRIERS -- Air Canada and CP Air.

UNIT TOLL TRANSPORTATION -- Transportation performed under the following classes of licence as issued by the Air Transport Committee of the Canadian Transport Commission:

Class 1 or Class 8, Scheduled Service Licences -- Public transportation of persons and/or goods between designated points in accordance with a service schedule and at a toll per unit.

Class 2 or Class 9-2, Regular Specific Point Licences -- Public transportation of persons and/or goods between designated points on a route pattern with some degree of regularity and at a toll per unit.

Class 3 or Class 9-3, Irregular Specific Point Licences -- Public transportation of persons and/or goods from a designated base serving a defined area or a specific point or points at a toll per unit.

WEIGHT LOAD FACTOR -- This ratio is calculated by dividing the number of revenue ton-miles by the total number of available ton-miles.

INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series is collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 115 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 300 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

.. figures not available; and,
— nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route,

INTRODUCTION

Le bulletin Opérations des transporteurs au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue.

Opérations des transporteurs aériens transcontinentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la direction et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin opérations des transporteurs aériens au Canada donne un aperçu des activités des sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85% des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 115 transporteurs des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 300 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux:

.. chiffres non disponibles; et,
— néant ou zéro.

En outre, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres totaux des tableaux sont attribués à la catégorie de

When making historical data comparisons by financial group, it is also noteworthy that prior to 1970 Nordair was included in Financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

With reference to Group V, data on flight training and recreational flying hours performed under authority of a Class 6 Flying Clubs licence have been included. However, specialty flying revenues are not reported by type of activity.

Figures shown for the numbers of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair a été compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées aux termes de la Loi nationale sur les transports.

En ce qui concerne les transporteurs du groupe V, il faut noter que les statistiques sur les heures pour "l'entraînement au vol" et le "vol récréatif" comprennent les heures de vol effectuées par les aéro-clubs sous l'autorité d'une licence de la classe 6. Cependant, les recettes de vols spécialisés ne sont pas déclarées par genre d'activité.

Il est à noter que le nombre de milles parcourus et le nombre d'heures de vol des compagnies étrangères qui apparaissent au tableau 1 ne se rapportent qu'aux activités effectuées en territoire canadien.

En général, les totaux depuis le début de l'année sont révisés dans le but d'inclure les révisions déclarées par les transporteurs aériens.

GLOSSARY

- AIRCRAFT AND TRAFFIC SERVICING EXPENSE** — This includes: compensation paid to ground personnel; the ground expenses involved in servicing and handling the traffic on the ground, in servicing and handling individual aircraft, in preparing aircraft crews for flight assignment, and in controlling the in-flight movement of aircraft; as well as the in-flight expenses of handling all non-passenger traffic including baggage.
- AVAILABLE SEAT-MILES** — The number of aircraft-miles flown multiplied by the number of seats on the aircraft. This figure represents the total passenger-carrying capacity offered.
- AVAILABLE TON-MILES** — The number of aircraft-miles flown multiplied by the usable weight capacity of the aircraft. This represents the load carrying capacity offered for passengers and goods.
- CAPITAL GAINS OR LOSSES** — Gains or losses involved in retiring operating property and equipment, flight equipment, expendable parts, miscellaneous materials and supplies, etc., when they are sold or otherwise removed from service as part of a general retirement program and not as incidental sales performed as a service to others.
- CARGO** — Both freight and express carried on an aircraft.
- CHARTER TRANSPORTATION** — Public transport of passengers and/or goods from a designated base at a toll per mile or per hour for the hire of the capacity of an aircraft.
- CONTRACT TRANSPORTATION** — Transportation not available to the public, performed in accordance with one or more specific contracts and conducted under a Class 5 licence issued by the Air Transport Committee of the Canadian Transport Commission.
- DEPARTURES** — Takeoffs of revenue transportation flights (unit toll, charter and contract services only) including non-scheduled takeoffs after operational stops.
- DEPRECIATION AND AMORTIZATION** — Include all charges to expense to record losses incurred in normal wear and tear on property and equipment which have not been replaced by current repair, as well as losses in serviceability occasioned by obsolescence - innovation, and changes in popular demand - or by action of a public authority. Also included are charges for the amortization of capitalized development, and other intangible assets.
- EMPLOYEES, CANADIAN CARRIERS** — All persons employed by a Canadian airline who are domiciled either domestically or in a foreign country.
- EMPLOYEES, FOREIGN CARRIERS** — Only those persons employed by a foreign airline who are resident in Canada.
- EXCESS BAGGAGE** — Baggage which in terms of weight, number of pieces or size exceeds the free baggage allowance stated in the air carrier's tariffs and for which a charge is levied. Air Canada and Transair do not report excess baggage weight or ton-miles.
- EXPRESS** — Property shipments within North America which are given priority over air freight. The rate charged includes door-to-door service on the ground as well.
- EXTRA-SECTION MILES** — Miles flown on flights which are added to those timetabled because of extra demand for air service.
- FOREIGN AIR CARRIER** — An airline of a foreign country operating scheduled and/or charter services to and from Canada.
- FREIGHT** — Property shipments for which a standard tariff rate is charged per unit of weight or volume.
- GENERAL ADMINISTRATION EXPENSES** — This term includes expenses of a general corporate nature as well as those incurred in performing activities which contribute to more than a single operating function, such as general financial accounting activities, purchasing activities, representation at law, and other operational administrations not directly applicable to a particular function.
- GOODS** — This term includes all types of non-passenger traffic, that is, freight, express and mail.
- GOODS TON-MILE** — A goods ton-mile represents the carriage of one ton of goods one mile. Ton-mile figures are obtained by totalling the number of miles flown with each ton of goods.
- GROUP I CARRIERS (FINANCIAL LEVEL 1)** — See "Transcontinental Carriers".
- GROUP II CARRIERS (FINANCIAL LEVEL 2)** — See "Regional Carriers". Prior to 1970, Nordair was included in Group III.
- GROUP III (FINANCIAL LEVEL 3)** — All air carriers not in Level 1 or Level 2 which have reported more than \$500,000 annually for combined unit toll and charter transportation revenues, or which have reported more than \$150,000 annually for unit toll revenues.
- GROUP IV (FINANCIAL LEVEL 4)** — All air carriers reporting more than \$150,000 gross annual flying revenues but not qualifying for Financial Level 3.
- GROUP V (FINANCIAL LEVEL 5)** — All air carriers reporting less than \$150,000 gross annual flying revenues.
- HOURS** — Canadian airlines report the total number of hours flown. Foreign airlines report only the number of hours flown over Canadian territory.
- INCIDENTAL REVENUES** — Revenues less related expenses from services incidental to air transportation, such as sales of service supplies and parts as well as the rental of operating property and equipment.

INTEREST EXPENSE -- Interest on all classes of debt including premium, discount and expense on short-term obligations; amortization of premium discount; and expense on short-term and long-term obligations.

MILE -- Statute mile of 5,280 feet. Canadian airlines report the number of miles flown for the complete flight distance. Foreign airlines report only miles flown over Canadian territory.

NON-OPERATING INCOME AND EXPENSE -- Income and loss of commercial ventures not part of the air transport services of the accounting entity; other revenues and expenses attributable to financing or other activities that are extraneous to and not an integral part of air transportation or its incidental services; and special recurrent items of a non-periodic nature.

OPERATING EXPENSE -- Expenses incurred in the performance of air transportation. It includes direct aircraft operating expenses as well as ground and indirect operating expenses.

OPERATING INCOME -- The profit or loss from performance of air transportation based on total operating revenues less total operating expenses. It does not include non-operating income and expenses or special items, and is a "before income taxes" figure.

OPERATING REVENUE -- Revenues from the performance of air transportation and related incidental services. It includes: (1) transport revenues from all classes of traffic, and (2) non-transport revenues consisting of payments under the National Transportation Act where applicable, and the net amount of revenues less related expenses from services incidental to air transportation.

PACIFIC AND ORIENT SERVICES -- Services to Australia, Fiji, Japan and Hong Kong, but excluding services to Hawaii. Prior to 1970, statistics for flights to Hawaii were included under the heading "Pacific and Orient" but are now included under "Transborder".

PASSENGER -- A person who pays a fare and receives air transportation is counted as one revenue passenger. Infants paying 10% adult fare are not included.

PASSENGER LOAD FACTOR -- This ratio is calculated by dividing the number of revenue passenger-miles by the number of available seat-miles. Seats not available for the carriage of passengers because of the weight of fuel or other considerations have been excluded.

PASSENGER-MILE -- A passenger-mile represents the carriage of one passenger for one mile. Passenger-mile figures are obtained by totalling the number of miles flown by each passenger.

PASSENGER SERVICE EXPENSE -- Costs of activities contributing to the comfort, safety and convenience of passengers while in flight and when flights are interrupted. It includes both salaries and expenses of cabin attendants, and the passenger food expense.

PASSENGER REVENUE PER PASSENGER-MILE -- This ratio is calculated by dividing the gross revenue earned in unit toll passenger services by the number of revenue passenger-miles reported for unit toll services.

PASSENGER TON-MILE -- This is a figure calculated by multiplying the number of revenue passengers carried by an arbitrary weight of 200 pounds which is assumed to be the average weight for a passenger and his free baggage allowance. The result is then divided by 2000 to give a ton-mile figure.

PASSENGER WEIGHT -- Standard passenger weight is 200 pounds per person, which includes free baggage allowance.

PROMOTION AND SALES EXPENSE -- Costs incurred both in promoting the use of air transportation generally, and in creating a public preference for the service of a particular air carrier. It includes selling, advertising, space reservations, and the development of tariffs and flight schedules for publication.

REGIONAL AIR CARRIER -- Any Canadian carrier designated by the Minister of Transport as "regional carrier". The regional carriers are Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways.

REGULAR, IRREGULAR AND SPECIFIC POINT AIR CARRIER -- Any carrier authorized by the Air Transport Committee of the Canadian Transport Commission to perform Classes 2, 9-2, 3, or 9-3 regular or irregular unit toll services to specified points. Class I and Class 8 licences indicate "scheduled" air carriers.

REGULARITY OF SERVICE -- A ratio obtained by dividing the scheduled miles flown by the scheduled miles performed under unit toll scheduled services. In this publication, "Regularity of Service" excludes the notion of timeliness.

SCHEDULED CARRIER -- Any airline having a Class I or Class 8 licence to perform scheduled unit toll operations.

SCHEDULED MILES -- The number of miles scheduled on an air carrier's timetable. The actual mileage flown may differ because of cancelled flights, reroutings or extra-section flights. (see "Regulatory of Service".)

SOUTHERN SERVICES -- Services between Canada and Bermuda, the Caribbean, Mexico, Central America and South America, excluding Florida. Prior to 1970, statistics for flights to Florida were included under the heading "Southern".

SPECIALTY FLYING -- Revenue flying services performed under authority of a Class 7 licence. Specialty flying consists of activities such as sightseeing, flight training, aerial photography and survey, etc. or other types of flying which do not involve the transport of passengers or goods from one place to another.

TOTAL OPERATING REVENUES PER EMPLOYEE -- This ratio is calculated by dividing the total gross operating revenues by the average number of employees for the month.

TON -- Short ton of 2,000 pounds.

TON-MILE - Represents the carriage of one ton of goods for one mile. Ton mileage is the sum of the miles flown with each ton of goods.

TRANS-ATLANTIC AND POLAR SERVICE - Services between Canada and Europe or between Canada and the Soviet Union.

TRANSBORDER SERVICES - Services between points in Canada and Alaska, Canada and Hawaii, and Canada and continental United States. Prior to 1970, statistics for flights to Hawaii were included under the heading "Pacific and Orient".

TRANSCONTINENTAL CARRIERS - Air Canada and CP Air.

UNIT TOLL TRANSPORTATION - Transportation performed under the following classes of licence as issued by the Air Transport Committee of the Canadian Transport Commission:

Class 1 or Class 8, Scheduled Service Licences - Public transportation of persons and/or goods between designated points in accordance with a service schedule and at a toll per unit.

Class 2 or Class 9-2, Regular Specific Point Licences - Public transportation of persons and/or goods between designated points on a route pattern with some degree of regularity and at a toll per unit.

Class 3 or Class 9-3, Irregular Specific Point Licences - Public transportation of persons and/or goods from a designated base serving a defined area or a specific point or points at a toll per unit.

WEIGHT LOAD FACTOR - This ratio is calculated by dividing the number of revenue ton-miles by the total number of available ton-miles.

GLOSSAIRE

CARGAISON — Comprend le fret et les envois exprès par aéronef.

COEFFICIENT DE CHARGEMENT — Ce coefficient est obtenu en divisant le nombre total des tonnes-milles payantes par le nombre total de tonnes-milles disponibles.

COEFFICIENT DE REMPLISSAGE PASSAGERS — Ce coefficient est obtenu en divisant le nombre de milles-passagers payants par le nombre de milles-sièges disponibles. INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series is collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 115 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 300 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

- .. figures not available; and,
- nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route.

INTRODUCTION

Le bulletin Opérations des transporteurs au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue.

Opérations des transporteurs aériens trans-continentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la directions et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin opérations des transporteurs aériens au Canada donne un aperçu des activités des sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85% des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 115 transporteurs des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 300 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux:

- .. chiffres non disponibles; et,
- néant ou zéro.

En outre, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres totaux des tableaux sont attribués à la catégorie de

When making historical data comparisons by financial group, it is also noteworthy that prior to 1970 Nordair was included in financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

With reference to Group V, data on light training and recreational flying hours performed under authority of a Class 6 Flying Clubs licence have been included. However, specialty flying revenues are not reported by type of activity.

Figures shown for the numbers of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair a été compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées aux termes de la Loi nationale sur les transports.

En ce qui concerne les transporteurs du groupe V, il faut noter que les statistiques sur les heures pour "l'entraînement au vol" et le "vol récréatif" comprennent les heures de vol effectuées par les aéro-clubs sous l'autorité d'une licence de la classe 6. Cependant, les recettes de vols spécialisés ne sont pas déclarées par genre d'activité.

Il est à noter que le nombre de milles parcourus et le nombre d'heures de vol des compagnies étrangères qui apparaissent au tableau 1 ne se rapportent qu'aux activités effectuées en territoire canadien.

En général, les totaux depuis le début de l'année sont révisés dans le but d'inclure les révisions déclarées par les transporteurs aériens.

AVAILABLE SEAT-MILES - The number of aircraft-miles flown multiplied by the number of seats on the aircraft. This figure represents the total passenger-carrying capacity offered.

AVAILABLE TON-MILES - The number of aircraft-miles flown multiplied by the usable weight capacity of the aircraft. This represents the load carrying capacity offered for passengers and goods.

CAPITAL GAINS OR LOSSES - Gains or losses involved in retiring operating property and equipment, flight equipment, expendable parts, miscellaneous materials and supplies, etc., when they are sold or otherwise removed from service as part of a general retirement program and not as incidental sales performed as a service to others.

EXPRESS - Property shipments within North America which are given priority over air freight. The rate charged includes door-to-door service on the ground as well.

EXTRA-SECTION MILES - Miles flown on flights which are added to those timetabled because of extra demand for air service.

FOREIGN AIR CARRIER - An airline of a foreign country operating scheduled and/or charter services to and from Canada.

FREIGHT - Property shipments for which a standard tariff rate is charged per unit of weight or volume.

GENERAL ADMINISTRATION EXPENSES - This term includes expenses of a general corporate nature as well as those incurred in performing activities which contribute to more than a single operating function, such as general financial accounting activities, purchasing activities, representation at law, and other operational administrations not directly applicable to a particular function.

GOODS - This term includes all types of non-passenger traffic, that is, freight, express and mail.

GOODS TON-MILE - A goods ton-mile represents the carriage of one ton of goods one mile. Ton-mile figures are obtained by totalling the number of miles flown with each ton of goods.

PASSENGER-MILE - A passenger-mile represents the carriage of one passenger for one mile. Passenger-mile figures are obtained by totalling the number of miles flown by each passenger.

PASSENGER SERVICE EXPENSE - Costs of activities contributing to the comfort, safety and convenience of passengers while in flight and when flights are interrupted. It includes both salaries and expenses of cabin attendants, and the passenger food expense.

PASSENGER REVENUE PER PASSENGER-MILE - This ratio is calculated by dividing the gross revenue earned in unit toll passenger services by the number of revenue passenger-miles reported for unit toll services.

PASSENGER TON-MILE - This is a figure calculated by multiplying the number of revenue passengers carried by an arbitrary weight of 200 pounds which is assumed to be the average weight for a passenger and his free baggage allowance. The result is then divided by 2000 to give a ton-mile figure.

TONNE — Tonne courte de 2,000 livres.

TONNE-MILLE — Correspond au transport d'une tonne de marchandises sur un mille. Le nombre total de tonnes-milles est la somme des distances sur lesquelles chaque tonne de marchandises a été transportée.

TONNES-MILLES DE MARCHANDISES — La tonne-mille de marchandises correspond au transport d'une tonne de marchandises sur un mille. Pour obtenir le nombre de tonnes-milles, il faut additionner les distances en milles sur lesquelles chaque tonne de marchandises a été transportée.

TONNES-MILLES DISPONIBLES — Distance en milles du vol multipliée par la capacité de charge utilisable de l'avion. Ce chiffre correspond à la capacité de charge disponible (passagers et marchandises).

TONNE-MILLE PASSAGER — On obtient ce chiffre en multipliant le nombre de passagers payants par un poids forfaitaire de 200 livres qui est censé correspondre à un passager moyen avec ses bagages en franchise. On divise ensuite le total par 2,000 pour obtenir le résultat en tonnes-milles.

TRANSPORT À FORFAIT — Transport qui n'est pas mis à la disposition du public et effectué en vertu d'un ou de plusieurs contrats précis et qui est assuré en vertu du permis de classe 5 émis par le Comité des transports aériens de la Commission canadienne des transports.

TRANSPORT À LA DEMANDE — Transport public de passagers ou de marchandises à partir d'une base désignée, suivant un barème au mille ou à l'heure de location de l'aéronef.

TRANSPORT À TARIF UNITAIRE — Transport effectué en vertu de l'une des catégories suivantes de licence délivrée par la Commission canadienne des transports:

Service régulier, classe 1 ou 8 — Transport public de personnes et/ou de marchandises entre des points désignés suivant un horaire régulier et un tarif unitaire.

Service régulier entre points déterminés, classe 2 ou 9-2 — Transport public de personnes et/ou de marchandises entre des points désignés formant un réseau et ayant une certaine régularité suivant un tarif unitaire.

Service irrégulier entre points déterminés, classe 3 ou 9-3 — Transport public de personnes et/ou de marchandises à partir d'une base désignée desservant une zone donnée de points déterminés suivant un tarif unitaire.

TRANSPORTEUR AÉRIEN ÉTRANGER — Toute compagnie aérienne étrangère qui exploite un service à horaire fixe et/ou de frètement à destination ou en provenance du Canada.

TRANSPORTEUR AÉRIEN RÉGIONAL — Toute compagnie aérienne canadienne désignée par le ministre des transports comme "transporteur régional". Sont des transporteurs régionaux, les sociétés Pacific Western Airlines, Transair, Nordair, Quebecair, et Eastern Provincial Airways.

TRANSPORTEUR À HORAIRE FIXE — Compagnie aérienne titulaire d'une licence de la classe 1 ou 8 l'autorisant à effectuer un service à horaire régulier à tarif unitaire.

TRANSPORTEURS AÉRIENS ASSURANT UN SERVICE RÉGULIER OU IRRÉGULIER ENTRE POINTS DÉTERMINÉS — Tout transporteur aérien titulaire d'une licence des classes 2, 9-2, 3 ou 9-3 émise par le Comité des transports aériens de la Commission canadienne des transports et l'autorisant à effectuer un service régulier ou irrégulier à tarif unitaire entre des points déterminés. Les titulaires de licences 1 et de classe 8 sont considérés comme des transporteurs "à horaire fixe".

TRANSPORTEURS DU GROUPE I (Niveau Financier 1) — Voir transporteurs transcontinentaux.

TRANSPORTEURS DU GROUPE II (Niveau Financier 2) — Voir transporteurs régionaux. Avant 1970, Nordair faisait partie des transporteurs du groupe III.

TRANSPORTEURS DU GROUPE III (Niveau Financier 3) — Comprend tous les transporteurs aérien qui n'appartiennent pas aux niveaux financiers 1 ou 2 et qui ont déclaré des recettes annuelles supérieures à \$500,000 provenant du transport à taxe unitaire et du transport en frètement, ou qui ont déclaré des recettes annuelles supérieures à \$150,000 provenant seulement du transport à taxe unitaire.

TRANSPORTEURS DU GROUPE IV (Niveau Financier 4) — Comprend tous les transporteurs aériens qui ont déclaré des recettes supérieures à \$150,000 provenant de l'exploitation aérienne, mais qui ne se classent pas au niveau financier 3.

TRANSPORTEURS DU GROUPE V (Niveau Financier 5) — Comprend tous les transporteurs aériens qui ont déclaré des recettes inférieures à \$150,000 provenant de l'exploitation aérienne.

TRANSPORTEURS TRANSCONTINENTAUX — Air Canada et CP Air.

VOLS SPECIALISES — Services aériens spécialisés en vertu d'une licence de la classe 7. Le vol spécialisé comprend les excursions aériennes, l'entraînement au vol, la photographie et les relevés aériens, etc. et d'autres types de vols qui ne consistent pas à transporter des passagers ou des marchandises entre deux points.

INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series is collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 115 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 300 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

- .. figures not available; and,
- nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route.

INTRODUCTION

Le bulletin Opérations des transporteurs au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue.

Opérations des transporteurs aériens transcontinentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la direction et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin opérations des transporteurs aériens au Canada donne un aperçu des activités des sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85% des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 115 transporteurs des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 300 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux:

- .. chiffres non disponibles; et,
- néant ou zéro.

En outre, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres totaux des tableaux sont attribués à la catégorie de

When making historical data comparisons by Financial group, it is also noteworthy that prior to 1970 Nordair was included in Financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

Commencing with the first quarter of 1973, statistics for "excess baggage ton-miles" are no longer shown separately under the heading "Unit Toll Services". The data are included in "goods ton-miles" together with cargo and mail ton-miles. The dollar revenues for "excess baggage" will continue to be shown in tables 2 and 3.

Separate statistics are shown for "Regularity of Service". They are obtained by dividing the scheduled miles flown by the miles scheduled.

With reference to Group V, data on flight training and recreational flying hours performed under authority of a Class 6 Flying Club licence, have been excluded. A total Specialty Flying Revenues will be shown for other Group V air carriers. However, revenues by type of specialty cannot be provided because Group V air carriers are not required to report such detail.

Figures shown for the number of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair a été compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées aux termes de la Loi nationale sur les transports.

A compter du premier trimestre de 1973, la statistique correspondant aux "tonnes-milles de bagage excédentaire" n'apparaît plus séparément dans les données des services de transport à tarif unitaire; toutefois, elle apparaît dans la statistique sur les "marchandises tonnes-milles" avec les tonnes-milles de cargaison et de courrier. Les recettes continueront de paraître dans les tableaux 2 et 3.

Nous donnerons des chiffres distincts pour la "régularité du service" qui est obtenue en divisant le nombre de milles de vols réguliers effectués par le nombre de vols réguliers suivant les services réguliers à tarif unitaire.

En ce qui concerne les transporteurs du groupe V, il faut noter que les statistiques sur les heures pour "l'entraînement au vol" et le "vol récréatif" ne comprennent pas les heures de vol effectuées par les aéro-clubs sous l'autorité d'une licence de la classe 6. Un total des recettes de vols spécialisés pour les autres transporteurs du groupe V sera publié dans le tableau 10. Cependant, nous ne pouvons vous fournir les recettes par genre d'activité parce que les obligations à rapporter des transporteurs du groupe V excluent ces détails.

Il est à noter que le nombre de milles parcourus et le nombre d'heures de vol des compagnies étrangères qui apparaissent au tableau 1 ne se rapportent qu'aux activités effectuées en territoire canadien.

En général, les totaux depuis le début de l'année sont révisés dans le but d'inclure les révisions déclarées par les transporteurs aériens.

INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series are collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 115 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 300 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

.. figures not available; and,
— nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route.

INTRODUCTION

Le bulletin Opérations des transporteurs au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue

Opérations des transporteurs aériens transcontinentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la direction et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin opérations des transporteurs aériens au Canada donne un aperçu des activités des sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85 des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 115 transporteurs des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 300 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux

.. chiffres non disponibles; et,
— néant ou zéro.

En outre, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire, comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres de tous les tableaux sont attribués à la catégorie de

When making historical data comparisons by financial group, it is also noteworthy that prior to 1970 Nordair was included in Financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

Commencing with the first quarter of 1973, statistics for "excess baggage ton-miles" are no longer shown separately under the heading "Unit Toll Services". The data are included in "goods ton-miles" together with cargo and mail ton-miles. The dollar revenues for "excess baggage" will continue to be shown in tables 2 and 3.

Separate statistics are shown for "Regularity of Service". They are obtained by dividing the scheduled miles flown by the miles scheduled.

With reference to Group V, data on flight training and recreational flying hours performed under authority of a Class 6 Flying Club licence, have been excluded. A total Specialty Flying Revenues will be shown for other Group V air carriers. However, revenues by type of specialty cannot be provided because Group V air carriers are not required to report such detail.

Figures shown for the number of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair a été compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées aux termes de la Loi nationale sur les transports.

A compter du premier trimestre de 1973, la statistique correspondant aux "tonnes-milles de bagage excédentaire" n'apparaît plus séparément dans les données des services de transport à tarif unitaire; toutefois, elle apparaît dans la statistique sur les "marchandises tonnes-milles" avec les tonnes-milles de cargaison et de courrier. Les recettes continueront de paraître dans les tableaux 2 et 3.

Nous donnerons des chiffres distincts pour la "régularité du service" qui est obtenue en divisant le nombre de milles de vols réguliers effectués par le nombre de vols réguliers suivant les services réguliers à tarif unitaire.

En ce qui concerne les transporteurs du groupe V, il faut noter que les statistiques sur les heures pour "l'entraînement au vol" et le "vol récréatif" ne comprennent pas les heures de vol effectuées par les aéro-clubs sous l'autorité d'une licence de la classe 6. Un total des recettes de vols spécialisés pour les autres transporteurs du groupe V sera publié dans le tableau 10. Cependant, nous ne pouvons vous fournir les recettes par genre d'activité parce que les obligations à rapporter des transporteurs du groupe V excluent ces détails.

Il est à noter que le nombre de milles parcourus et le nombre d'heures de vol des compagnies étrangères qui apparaissent au tableau 1 ne se rapportent qu'aux activités effectuées en territoire canadien.

En général, les totaux depuis le début de l'année sont révisés dans le but d'inclure les révisions déclarées par les transporteurs aériens.

MARCHANDISES — Comprend tout trafic autre que le trafic passager i.e. fret, envois exprès, courrier et bagage excédentaire.

MILLE — Mille terrestre de 5,280 pieds. Les compagnies aériennes canadiennes déclarent le nombre de milles de vol sur toute la distance des envolées. Les compagnies étrangères déclarent seulement le nombre de milles de vol en territoire canadien.

OMBRE DE MILLES PRÉVUS — Nombre de milles prévus à l'horaire d'un transporteur aérien. Le millage réel peut être différent de ce chiffre à cause d'annulations de vols, de déroutements ou d'étapes supplémentaires. Voir "Régularité du service".

OMBRE DE MILLES SUPPLÉMENTAIRES — Distance en milles de vols ajoutés aux horaires pour répondre à une demande supplémentaire.

OPÉRATIONS PAYANTES — Voir recettes d'exploitation.

PASSAGER — Toute personne qui achète un billet et fait un voyage par avion est considérée comme passager payant. Les personnes pour lesquelles le prix du billet de passage équivaut à 10% ou moins de celui du billet pour adulte ne sont pas comptées.

PASSAGER-MILLE — Le passager-mille correspond au transport d'un passager sur une distance d'un mille. Pour obtenir le nombre de passagers-milles, il faut additionner la distance en milles sur laquelle chaque passager a été transporté.

RECETTES D'EXPLOITATION — Recettes provenant du transport aérien et des services accessoires. Comprend (1) les recettes de transport pour toutes les classes du trafic et (2) les recettes autres que les recettes de transport constituées par les versements en vertu de la Loi nationale sur les transports (le cas échéant) et le montant net des recettes, moins les dépenses correspondantes, provenant des services accessoires du transport aérien.

RECETTES DES SERVICES AUTRES QUE CEUX DE VOL — Recettes, moins les dépenses afférentes, provenant des services accessoires autres que les services de vol effectués par le transporteur par air, notamment le service de restaurant et d'alimentation, le service de limousine, la réparation et le service courant des aéronefs et le service des cargaisons aériennes.

RÉGULARITÉ DE SERVICE — Rapport calculé en divisant le nombre de milles de vols réguliers effectués par le nombre de vols réguliers suivant les services réguliers à tarif unitaire. Dans le présent bulletin, la régularité du service ne signifie pas la régularité chronologique des vols.

REVENU D'INTÉRÊTS ET D'ESCOMPTE — Revenu d'intérêts provenant de toutes sources et les escomptes au comptant sur les achats de matériaux et de fournitures.

REVENU OU PERTE D'EXPLOITATION — Bénéfice ou perte du transport aérien calculé pour l'ensemble des recettes et des frais d'exploitation. Ne comprend pas les revenus ou dépenses hors exploitation ni les postes spéciaux. Il s'agit d'un chiffre avant déduction de l'impôt.

REVENUS ET DÉPENSES HORS EXPLOITATION — Revenus et pertes sur des entreprises commerciales hors du domaine des services aériens, de l'unité comptable; autres recettes et dépenses imputables aux opérations de financement ou autres, étrangères au service du transport aérien et à des services accessoires; postes spéciaux dont la répétition n'est pas de nature périodique.

SIÈGES-MILLES DISPONIBLES — Distance en milles de chaque vol multipliée par la capacité de l'avion en sièges. Ce chiffre correspond à la capacité totale de transport disponible pour les passagers. Les sièges condamnés en raison des limitations de chargement de la cabine à cause du poids de carburant embarqué ou pour d'autres raisons ne sont pas comptés.

TONNE — Tonne courte de 2,000 livres.

TONNE-MILLE — Correspond au transport d'une tonne de marchandises et/ou de passagers sur un mille.

TONNES-MILLES DE MARCHANDISES — La tonne-mille de marchandises correspond au transport d'une tonne de marchandises sur un mille. Pour obtenir le nombre de tonnes-milles, il faut additionner les distances en milles sur lesquelles chaque tonne de marchandises a été transportée.

TONNES-MILLES DISPONIBLES — Distance en milles de chaque vol multipliée par la capacité de charge utilisable de l'avion. Ce chiffre correspond à la capacité de charge disponible pour les passagers et/ou les marchandises. La capacité de charge non disponible en raison du poids du carburant embarqué ou pour d'autres raisons n'est pas comptée.

TONNE-MILLE PASSAGER — On obtient ce chiffre en multipliant le nombre de passagers-milles payants par un poids forfaitaire de 200 livres qui est censé correspondre à un passager moyen avec des bagages en franchise. On divise ensuite le total par 2000 pour obtenir le résultat en tonnes-milles.

TRANSPORT À LA DEMANDE — Transport public, si la demande est suffisante, de passagers et/ou de marchandises à partir d'une base spécifiée moyennant un taux calculé au mille ou à l'heure pour l'affrètement d'un aéronef entier. Ce chiffre comprend aussi le transport à forfait effectué en vertu du permis de la classe 5.

INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series are collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 115 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 300 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

.. figures not available; and,
— nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route.

INTRODUCTION

Le bulletin Opérations des transporteurs au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue.

Opérations des transporteurs aériens transcontinentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la direction et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin opérations des transporteurs aériens au Canada donne un aperçu des activités des sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85% des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 115 transporteurs des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 300 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux:

.. chiffres non disponibles; et,
— néant ou zéro.

En outre, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres totaux des tableaux sont attribués à la catégorie de

When making historical data comparisons by financial group, it is also noteworthy that prior to 1970 Nordair was included in Financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

Commencing with the first quarter of 1973, statistics for "excess baggage ton-miles" are no longer shown separately under the heading "Unit Toll Services". The data are included in "goods ton-miles" together with cargo and mail ton-miles. The dollar revenues for "excess baggage" will continue to be shown in tables 2 and 3.

Separate statistics are shown for "Regularity of Service". They are obtained by dividing the scheduled miles flown by the miles scheduled.

With reference to Group V, data on flight training and recreational flying hours performed under authority of a Class 6 Flying Club licence, have been excluded. A total Specialty Flying Revenues will be shown for other Group V air carriers. However, revenues by type of specialty cannot be provided because Group V air carriers are not required to report such detail.

Figures shown for the number of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair a été compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées aux termes de la Loi nationale sur les transports.

A compter du premier trimestre de 1973, la statistique correspondant aux "tonnes-milles de baggage excédentaire" n'apparaît plus séparément dans les données des services de transport à tarif unitaire; toutefois, elle apparaît dans la statistique sur les "marchandises tonnes-milles" avec les tonnes-milles de cargaison et de courrier. Les recettes continueront de paraître dans les tableaux 2 et 3.

Nous donnerons des chiffres distincts pour la "régularité du service" qui est obtenue en divisant le nombre de milles de vols réguliers effectués par le nombre de vols réguliers suivant les services réguliers à tarif unitaire.

En ce qui concerne les transporteurs du groupe V, il faut noter que les statistiques sur les heures pour "l'entraînement au vol" et le "vol récréatif" ne comprennent pas les heures de vol effectuées par les aéro-clubs sous l'autorité d'une licence de la classe 6. Un total des recettes de vols spécialisés pour les autres transporteurs du groupe V sera publié dans le tableau 10. Cependant, nous ne pouvons vous fournir les recettes par genre d'activité parce que les obligations à rapporter des transporteurs du groupe V excluent ces détails.

Il est à noter que le nombre de milles parcourus et le nombre d'heures de vol des compagnies étrangères qui apparaissent au tableau 1 ne se rapportent qu'aux activités effectuées en territoire canadien.

En général, les totaux depuis le début de l'année sont révisés dans le but d'inclure les révisions déclarées par les transporteurs aériens.

INTRODUCTION

Air Carrier Operations in Canada is one of a series of five publications containing statistics on the activities and finances of Canadian commercial airline operations. The series comprises the following publications:

Air Carrier Financial Statements
Annually. Catalogue No. 51-206;

Air Carrier Operations in Canada
(Commercial Operators). Quarterly.
Catalogue No. 51-002;

International Air Charter Statistics
Quarterly. Catalogue No. 51-003;

Service Bulletin
Monthly and Quarterly. Catalogue No.
51-004; and,

Transcontinental and Regional Air Carrier Operations
Monthly. Catalogue No. 51-001.

The data for the series are collected by the Aviation Statistics Centre under the direction and authority of the Canadian Transport Commission. Statistics are compiled from edited reports submitted monthly and quarterly by Canadian air carriers.

Air Carrier Operations in Canada summarizes the activities of Canada's seven major airlines — Air Canada, CP Air, Pacific Western Airlines, Transair, Nordair, Quebecair, and Eastern Provincial Airways — which account for approximately 85 percent of revenues and expenses reported by all Canadian carriers. This publication also contains data on some 131 Group III and IV carriers grossing more than \$150,000 in revenues each year, as well as on the more than 400 commercial operators in Group V with gross annual revenues of less than \$150,000.

In presenting tabular data in the publications, the following symbols denote:

- .. figures not available; and,
- nil or zero.

Moreover, in instances in which an air carrier flies both "scheduled" and "irregular and specific point" unit toll services along a particular route, totals appearing in the tables are allocated to that category of service predominating over the entire route.

INTRODUCTION

Le bulletin Opérations des transporteurs aériens au Canada est l'un des cinq bulletins statistiques qui traitent des activités et des finances des exploitants de lignes aériennes commerciales au Canada. La série comprend les numéros suivants:

Transporteurs aériens — États financiers
Annuel. N° 51-206 au catalogue.

Opérations des transporteurs aériens au Canada
(Exploitants commerciaux). Trimestriel.
N° 51-002 au catalogue.

Statistique des affrètements aériens internationaux
Trimestriel. N° 51-003 au catalogue.

Bulletin de service
Mensuel et trimestriel. N° 51-004 au catalogue, ainsi que,

Opérations des transporteurs aériens transcontinentaux et régionaux
Mensuel. N° 51-001 au catalogue.

Les données de la série sont recueillies par le Centre des statistiques de l'aviation sous la direction et avec l'autorisation de la Commission canadienne des transports. Les statistiques sont établies à partir des déclarations remises chaque mois et chaque trimestre par les transporteurs aériens canadiens.

Le bulletin Opérations des transporteurs aériens au Canada donne un aperçu des activités des sept plus importantes compagnies aériennes du Canada — Air Canada, CP Air, Eastern Provincial Airways, Nordair, Pacific Western Airlines, Transair, et Quebecair — qui représentent approximativement 85% des recettes et dépenses déclarées par tous les transporteurs canadiens. La publication contient aussi les statistiques d'environ 131 transporteurs des groupes III et IV dont les recettes annuelles brutes sont supérieures à \$150,000 ainsi que le sommaire des opérations de plus de 400 transporteurs commerciaux du groupe V dont les recettes annuelles brutes sont inférieures à \$150,000.

On fait appel aux signes conventionnels suivants pour présenter les chiffres des tableaux:

- .. chiffres non disponibles; et,
- néant ou zéro.

De plus, dans les cas où un transporteur aérien offre des services de transport à tarif unitaire comprenant des services "à horaire fixe" et des services "irréguliers entre points déterminés" pour un itinéraire particulier, les chiffres totaux des tableaux sont attribués à la catégorie de

When making historical data comparisons by financial group, it is also noteworthy that prior to 1970 Nordair was included in Financial Level III, and that the statement of income submitted by Eastern Provincial Airways was revised in February, 1970, to exclude subsidies claimed under the National Transportation Act from its "operating revenues" total.

Commencing with the first quarter of 1973, statistics for "excess baggage ton-miles" are no longer shown separately under the heading "Unit Toll Services". The data are included in "goods ton-miles" together with cargo and mail ton-miles. The dollar revenues for "excess baggage" will continue to be shown in tables 2 and 3.

Separate statistics are shown for "Regularity of Service". They are obtained by dividing the scheduled miles flown by the miles scheduled under unit toll scheduled services.

With reference to Group V, data on flight training and recreational flying hours performed under authority of a Class 6 Flying Club licence, have been excluded. A total Specialty Flying Revenues will be shown for other Group V air carriers. However, revenues by type of specialty cannot be provided because Group V air carriers are not required to report such detail.

Figures shown for the number of both miles and hours flown by foreign scheduled airlines in Table 1 pertain only to those flown over Canadian territory.

In general, year-to-date totals are updated to include revised data reported by air carriers.

service qui prédomine sur le parcours en question. Si l'on compare les données chronologiques suivant les groupes financiers, il convient de noter qu'avant 1970 Nordair était compris dans le groupe financier III, et que l'état des recettes produit par Eastern Provincial Airways a été révisé en février 1970 afin d'éliminer du montant total des "recettes d'exploitation" les subventions réclamées en vertu de la Loi nationale sur les transports.

À compter du premier trimestre de 1973, la statistique correspondant aux "tonnes-milles de bagage excédentaire" n'apparaît plus séparément avec les données des services de transport à tarif unitaire; toutefois, elle apparaît dans la statistique sur les "marchandises tonnes-milles" avec les tonnes-milles de cargaison et de courrier. Les recettes relatives au "bagage excédentaire" continueront de paraître aux tableaux 2 et 3.

Des chiffres distincts sont montrés pour l'item "Régularité de service". Ces chiffres s'obtiennent en divisant le nombre de milles des vols réguliers par le nombre des vols réguliers selon les services réguliers à tarif unitaire.

En ce qui concerne les transporteurs du groupe V, les données relatives aux heures pour "l'entraînement au vol" et le "vol récréatif" ne comprennent pas les heures de vol effectuées par les aéro-clubs en vertu d'un permis de la classe 6. Un total des recettes de vols spécialisés pour les autres transporteurs du groupe V sera publié au tableau 10. Cependant, les recettes par genre de services spécialisés ne sont pas fournies parce que les transporteurs aériens du groupe V n'ont pas à soumettre ce genre de détails.

Les chiffres se rapportant au nombre de milles et au nombre d'heures de vols réguliers des transporteurs étrangers apparaissant au tableau 1 ne s'appliquent qu'aux vols intérieurs c'est-à-dire ceux effectués en territoire canadien.

En général, les totaux depuis le début de l'année sont mis à jour dans le but d'inclure les révisions déclarées par les transporteurs aériens.

GLOSSARY

- AIRCRAFT AND TRAFFIC SERVICING EXPENSES** — This includes: compensation paid to ground personnel; the ground expenses involved in servicing and handling the traffic on the ground, in servicing and handling individual aircraft, in preparing aircraft crews for flight assignment, and in controlling the in-flight movement of aircraft; and the in-flight expenses of handling all non-passenger traffic including baggage.
- AVAILABLE SEAT-MILES** — The number of miles flown on each flight, multiplied by the total number of seats available for passengers. This represents the total passenger carrying capacity offered. Seats not available because of the weight of fuel or other considerations have been excluded.
- AVAILABLE TON-MILES** — The number of miles flown on each flight multiplied by the usable weight capacity of the aircraft. This represents the load carrying capacity offered for passengers and/or goods. Load capacity not available because of the weight of fuel or other considerations has been excluded.
- CAPITAL GAINS OR LOSSES** — Gains or losses involved in retiring operating property and equipment, aircraft equipment, expendable parts, miscellaneous materials and supplies, and investments in securities and other assets, when they are sold or otherwise retired from service as part of a general retirement program and not as incidental sales performed as a service to others.
- CARGO** — Total freight and express carried. Cargo does not include mail or excess baggage.
- CHARTER TRANSPORTATION** — Public transportation on reasonable demand, of persons and/or goods from a specified base at a toll per mile or per hour for the charter of an entire aircraft. This includes contract transportation under class 5 licences.
- DEPARTURES** — Takeoffs of revenue transportation flights of unit toll and charter services. This includes non-scheduled take-offs after operational stops.
- DEPRECIATION AND AMORTIZATION** — Includes all charges to expense to record losses incurred in normal wear and tear on property and equipment which have not been replaced by current repair, as well as losses in serviceability occasioned by obsolescence, innovation, and changes in popular demand, or by the action of public authority. Also included are charges for the amortization of capitalized development, and other intangible assets.
- EMPLOYEES, CANADIAN CARRIERS** — All persons employed by a Canadian airline who are domiciled domestically or in a foreign country.
- EMPLOYEES, FOREIGN CARRIERS** — Only those persons employed by a foreign airline who are resident in Canada.
- EXCESS BAGGAGE** — Baggage which in terms of weight, number of pieces, or size exceeds the free baggage allowance stated in the air carrier's tariffs and for which a charge is levied.
- EXPRESS** — Property shipments within North America which are given priority over air freight. The rate charged includes door-to-door service on the ground as well.
- EXTRA-SECTION MILES** — Miles flown on flights which are added to those scheduled because of extra demand for air service.
- FLYING OPERATIONS EXPENSES** — Expenses incurred directly in the in-flight operation of aircraft or in the holding of aircraft and aircraft personnel in readiness for assignment to an in-flight status. Landing fees are also included in this account.
- FOREIGN AIR CARRIER** — An airline of a foreign country operating scheduled and/or charter services to and from Canada.
- FREIGHT** — Property shipments for which a standard tariff rate is charged per unit of weight or volume. Freight does not include express, mail, or excess baggage. See GOODS.
- GENERAL ADMINISTRATION EXPENSES** — Includes expenses of a general corporate nature as well as expenses incurred in performing activities which contribute to more than a single operating function, such as general financial accounting activities, purchasing activities, representation at law, and other operational administrations not directly applicable to a particular function.
- GOODS** — This term includes all types of non-passenger traffic, that is, freight, express, mail, and excess baggage.
- GOODS TON-MILE** — A goods ton-mile represents the carriage of one ton of goods over one mile. Ton-mile figures are obtained by totalling the number of miles flown with each ton of goods. For charter operations, goods ton-miles are reported only if flown on aircraft with a gross take-off weight in excess of 18,000 pounds.
- GROUP I CARRIERS (FINANCIAL LEVEL I)** — Air Canada and CP Air.
- GROUP II CARRIERS (FINANCIAL LEVEL II)** — Any Canadian air carrier designated by the Minister of Transport as a "regional carrier". The regional carriers are Pacific Western Airlines Ltd., Transair Ltd., Nordair Ltd., Quebecair, and Eastern Provincial Airways (1963) Ltd.
- GROUP III CARRIERS (FINANCIAL LEVEL III)** — All air carriers which are not in Level I or Level II and which in the two previous years, reported revenues of more than \$500,000 from unit toll, charter and contract services, or revenues of more than \$150,000 from unit toll services.
- GROUP IV CARRIERS (FINANCIAL LEVEL IV)** — All air carriers which are not in Levels I, II, or III, and which in the two previous years, reported annual gross flying revenues of at least \$150,000.
- GROUP V (FINANCIAL LEVEL V)** — All air carriers which in the previous year reported revenues of less than \$150,000.

HOURS FLOWN - Canadian carriers report the total number of hours flown. Foreign carriers report only the number of hours flown over Canadian territory.

INCOME FROM INTERESTS AND DISCOUNTS - Interest income from all sources and cash discounts on purchases of materials and supplies.

INTEREST EXPENSE - Interest on all classes of debt including premiums, discounts and expenses on short-term obligations; amortization of premium discounts; and expenses on short-term and long-term obligations.

MAINTENANCE EXPENSES - Expenses, both direct and indirect, incurred in the repair and up keep of property and equipment required to meet operating and safety standards.

MILE - Statute mile of 5,280 feet. Canadian airlines report the number of miles flown for the complete flight. Foreign airlines report only the number of miles flown over Canadian territory.

NON-FLYING SERVICES REVENUES - Revenues less related expenses from non-flying services incidental to air transport, such as sales of service supplies and parts, rental of operating property and equipment, operation of restaurants, and limousine service.

NON-OPERATING INCOME AND EXPENSE - Income and loss of commercial ventures not part of the air transport services of the accounting entity; other revenues and expenses attributable to financing or other activities that are extraneous to and not an integral part of air transportation or its incidental services; and special recurrent items of a non-periodic nature.

OPERATING EXPENSES - Expenses incurred in the performance of air transportation. It includes direct aircraft operating expenses as well as ground and indirect operating expenses.

OPERATING INCOME OR LOSS - The profit or loss from performance of air transportation based on total operating revenues less total operating expenses. It does not include non-operating income and expenses or special items, and is a "before income taxes" figure.

OPERATING REVENUE - Revenues from the performance of air transportation and related non-flying services. It includes: (1) transport revenues from all classes of traffic, and (2) non-transport revenues consisting of payments under the National Transportation Act where applicable, and the net amount of revenues less related expenses from services incidental to air transportation.

PACIFIC AND ORIENT SERVICES - Services to Australia, Oceania, and Asia (excluding the Soviet Union). Prior to 1970, statistics for flights to Hawaii were included under this heading, but are now included under "transborder".

PASSENGER - A person who pays a fare and receives air transportation, including a free baggage allowance, is counted as one revenue passenger. Persons paying 10% or less of the adult fares, are not included.

PASSENGER LOAD FACTOR - The ratio obtained by dividing the passenger-miles performed by the number of seat-miles available.

PASSENGER-MILE - Represents the carriage of one passenger for one mile. Passenger-mile figures are obtained by totalling the number of miles flown by each passenger. For charter operations, passenger-miles are reported only if flown on an aircraft with a gross take-off weight in excess of 18,000 pounds.

PASSENGER SERVICES EXPENSES - Costs of activities contributing to the comfort, safety and convenience of passengers while in flight and when flights are interrupted. It includes both salaries and expenses of cabin attendants, and the passenger food expenses.

PASSENGER TON-MILE - This figure is calculated by multiplying the number of passenger-miles carried by an arbitrary weight of 200 pounds which is assumed to be the average weight for a passenger and his free baggage allowance. The result is then divided by 2,000 to give passenger ton-miles.

PROMOTION AND SALES EXPENSES - Costs incurred both in promoting the use of air transportation generally, and in creating a public preference for the services of a particular air carrier. It includes selling, advertising, space reservations, and the development of tariffs and flight schedules for publication.

REGULARITY OF SERVICE - The ratio obtained by dividing the scheduled miles flown by the miles scheduled under unit toll scheduled services. In this publication, Regularity of Service excludes the notion of timeliness.

REVENUE OPERATIONS - See Operating Revenues.

SCHEDULED MILES - The number of miles scheduled on an air carrier's timetable. The actual mileage flown may differ because of cancelled flights, re-routing, or extra-section flights. See REGULARITY OF SERVICE.

SOUTHERN SERVICES - Services between Canada and Bermuda, the Caribbean, Mexico, Central America, and South America. Prior to 1970, statistics for flights to Florida were included under this heading.
